HUNTER Dış Tic. ve San. A. Ş. is a family company which started textile production in 1951.

HUNTER, ranks 3rd in the world with woven plush fabric capacity inside 12.000 sqm production area in Taşköprü Industrial Zone in Yalova city. It is the only company in the world with all facilities under one roof as fiber winding facility, fabric weaving facility, stitching facility, plastic injection facility and metal work facility.

Plush Fabrics manufactured by HUNTER are used in production of cleaning products and paint rollers.

Special designed fabric production is also realized with various fiber combinations; especially for cleaning industry. These advanced fabrics are widely used in mops, cleaning systems and in waxing.

HUNTER is a leading manufacturer and exporter of industrial cleaning equipments such as; mops, mop holders, handles, buckets, mopping trolleys, serving trolleys, floor & window cleaning equipments, wet floor signs, microfiber cloths, etc.

HUNTER also offers household cleaning equipments such as socket-mops, handles, spinning mop sets, ready-to-use flat mopping sets, clothes, and many other cleaning equipments.

HUNTER is an export-focused manufacturer and is aware of its responsibilities. In these regards, HUNTER acts in this logic; analyzes its production in certain periods, in industrial washing machines in its own R&D department, by adding chemicals depending on the area where mops are used.

HUNTER's starting point is to produce highest quality special design mops and compatible equipments according to the requirements.

We as HUNTER family, will be happy to share all our knowledge and accumulated experience with you, our esteemed business partner, with the capability and machinery we own.
